

Well-Child Visits in the 3rd, 4th, 5th, and 6th Years of Life (W34)

The measure includes children 3-6 years of age who were continuously enrolled in Louisiana Medicaid during the measurement year. The rate (percentage) shows how many of these children had at least one well-child visit with a primary care provider during that year.

Notes:

- Rates shown are for Medicaid-only recipients.
- Rates shown for 2006 through 2010 exclude Medicare dual eligibles and third-party liability.
- Rate shown for 2011 excludes Medicare dual eligibles, but includes third-party liability.
- Claims for 2006 through 2010 have a 6-month claim lag while claims for 2011 have a 3-month claim lag.
- Definition of primary care providers includes clinics or group practices.
